Comments

ADD 2 QTS OF OIL, REAR AIR AT 10 PSI,

< End of List >

Done | Internet

When the screen lists all checklist items with a corresponding item status, as shown above, the checklist has been properly saved and nothing more is required to complete it.

The **Submit** button is used in conjuction with the Unit field and the Date field to allow the user to view a checklist from another date, another unit, or another unit on another date.   If the date of the checklist is the same as the current date, the checklist can be updated. If the current date does not match the checklist date, the checklist cannot be updated. Also, a checklist cannot be added for any date that is not the current date.
